Project Executive Officer,
Mangalore

To 7092

The Director of Community Projects
and Ex-officio Secretary to Govt.
Fort St.George, Madras 9.

SPECIAL OFFICER, (COMMUNITY PROJECTS,) 10 APR 1953 RECEIVED ACCOUNTS & DEPT. GOVT. MADRAS

Sir,

COMMUNITY PROJECTS - South Kanara District - Education - General - District Board Higher Elementary School, Kadandale - Construction of additional block - Report - Submitted.

***

Kadandale is a village situated in Block II. There is a Higher Elementary School run by the District Board. The Project Advisory Committee at its meeting held on 22-12-1952 suggested that the additional accommodation required for this school may be taken up under the Community Project. The District Board President has sent an estimate prepared by the Divisional Engineer (Highways) for this purpose. The estimate is for Rs. 18,000/- . The District Board President suggests that 50% of the estimated cost may be met from the Community Project.

I inspected the school on 6-4-1953. Classes I to VIII are housed in the same school. There are 215 boys and 100 girls making a total of 315 on the rolls. The school space is sufficient for 180 students. 70 students are being seated in the thatched varandah attached to the school. At the time of inspection, three classes, II, IV and VI are held under the shade of trees. There are 10 teachers in this school, one of whom being a prevocational teacher. Spinning and Weaving are the main crafts. Two basic teachers are working in this School. Lace making, basket making, rope making are also taught. The average attendance is 274. The loom is also put up in one of the halls occupying a space of about 200 square feet. If this is eliminated from the available space, it will be sufficient only for 230 students. It is inclusive of the varandah accommodation. The necessity for additional accommodation is keenly felt. The school-age children in this zone are 271 males and 164 females making a total of 435. Of this, 189 boys and 98 girls making a total of 287 are attending the school. There are 146 students in the village within school-age who could not find admission in this school. Taking on the whole, about half of the number of this 146 having been outside the school because of scarcity of space, it may be expected that half of the number i.e. nearly 75 will get new admission in case, additional accommodation is available. The strength of the school is 315 and if the 75 possible new entrants come in, the number will be 390. Therefore accommodation has to be made for 390 students. As already stated, the existing accommodation is sufficient for 230 - 70 (Varandah space) = 160. Additional accommodation has therefore to be made for 390 - 160 = 230.

According to rules, 9½ square feet is required for each student and as such for 230, the space required will be 2185 square feet. The plan prepared by the Divisional Engineer covers nearly a total space of 4600 square feet, as against the required space of nearly 2200 square feet. Kind ~~attention~~ reference is invited to the sketch. Varandahs on all sides and a Portico on one side have been provided for in the plan. The approximate area of the inner hall measuring 127 x 17'9 will be a little over 2200 square feet. This hall is sufficient for accommodating the students. There is already a foundation laid by the villagers as per the plan enclosed. But, the contribution on behalf of the Community Project may be confined to the inner hall alone. As already stated, the total extent of the construction is 4600 square feet. The space in the hall is 2200 square feet. It works out roughly half. Therefore, the cost of the inner hall according to the space, would be half of the estimated cost of Rs. 18,000/- for the entire building i.e. Rs. 9,000 for the hall. 50% of this can be incurred by the Community Projects and the balance may be left to the villagers or the

P.T.O

District Board. - I recommend that Rs. 4,500/- may be sanctioned for the construction of additional accommodation and this may be ordered to be paid ~~with reference~~ at 50% of the work done in respect of the hall measuring 127.3 x 17.9 shown in the plan. It is left to the villagers or District Board to raise the Varandahs and Portico.

The estimate prepared by the Divisional Engineer (Highways) in duplicate is enclosed.

.....

Sir,

Sub: Community Projects - South Kanara area - Education - Construction of additional accommodation to the District Board Higher Elementary School at Kadandale - Report Submitted.

Ref: Government Memorandum No. 7002, Public (C.P.Audit)/53-1 dated 10-5-1953.

*****

The President of the Building Committee of the Board Higher Elementary School, Kadandale was requested to state whether the beneficiaries are willing to carry out the work with a grant of Rs. 1,500/- from the Community Project funds. He states that the villagers will not be able to complete the work with a grant of Rs. 1,500/- from the Community Project and requests that as a special case, a sum of Rs. 2,500/- might be granted from the Community Project funds.

2. Kind attention is invited to my report Ref. C.No.993/53 dated 7-4-1953. As stated therein, the estimated cost of construction of the hall as per the estimate prepared by the Divisional Engineer is Rs. 9,000/- If this hall is constructed, the school will be able to accommodate all the school-age children of the village. The villagers may not be able to construct the building with a grant of Rs. 1,500/- as suggested in the Government Memorandum cited. They will be able to put up the building if a grant of Rs. 2,500/- is given from the Community Project funds. I, therefore recommend that a grant of Rs. 2,500/- may be sanctioned. In this connection, I invite attention to the fact that in the case of the Board Higher Elementary School, Mudushedde, the Government have sanctioned a grant of Rs. 2,500/- in G.O.Ms.No.1529, Public (C.P.)Department, dated 8-6-1953. The same amount may be sanctioned in this case also. The amount may be ordered to be paid at 50% of the work done subject to a maximum of Rs. 2,500/-

PROJECT EXECUTIVE OFFICER.

Report to accompany the Estimate for

Constt an addl. Block to Bdl Asylum Ele. Sdl

Kadamdale

The proposal is to have an additional block over the existing built by the local people. The existing basement masonry is of random rubble in clay of medium type 3-6 int. built to a thickness of 2'-0 and bottom 2-0 to 3'-0 depth is of 2'-6" thickness; The foundation everywhere is taken 2-0 below ground level except on the Southern Side Verandah retaining wall wherein it is only 1'-0 below G.L. Hence the proposal provides for dismantling the Southern Side Verandah retaining wall which is of 3' above G.L and 1-0 below G.L, and rebuilt with random rubble in clay 2'-0 below G.L and 4-3" above G.L. Utilising the old stone work

the Stones got out of this quantity. This is only
quite allowance for pumpen Sized Stones. To Strengthen
the load bearing masonry, R.C. Slab is provided to prevent
any future Settlement. The local people have
made Two door frames only 1-1"x4-0 and windo
2 Nos. 5'-3½"x 3-0 with pulmyrah bars. This has
been provided in the estimate Separate provision
is made to Suit the necessity Shutters and partitio

The other details is as per the estimate
the work will be got executed as per P.D.S.S.

(C No. 7003/53) Sub- Community Projects - South Kanara district- Education
Constructing addl accommodation to the Dt. board higher elementary
School at Kadandale.

pl CF Ref. From the PEO. Mangalore Ref. C No. 993/53 C dt. 7.4.53

Please see the letter cited above from the PEO. Mangalore.
The PEO requests sanction to construct additional accommodation
consisting Rs 18000 to the Dt board higher elementary School at
Kadandale in Block I of the Area. The work is reported to
have been approved by the Project advisory Committee. The
sanction asked for is for Rs ~~9000~~ 4500 being half the estimated Cost
for the floor Space of 2200 sq ft. (Rs 9000) out of the total area
of 4600 sq ft for the entire building.

The estimate & plan have been prepared and technically
approved by the Dvl. Engineer highways, as reported by the PEO.

Extract of note from file bearing C. No. 11690-A/52.

at (F) ← regarding the policy of education is put up

It is made clear that the C.A. is not adverse to rendering
aid to elementary education and does not insist on basic
education. As such the work may be permissible.

Not put up The Project estimate for the 18th year of development in the
Area allows for 15 primary schools or junior basic Sch
1 high school to be improved and 27 existing schools
helped to improve existing accommodation. The work in
falls under the last category and the amount set apart
Rs 54000, out of Rs 1.46 lakhs under "Education". It may be
possible to carry out the 27 works proposed if the over
expenditure is just limited to Rs 2000.

The PEO ~~visit~~ might therefore be told that a maximum of Rs
only can be sanctioned from C.P. funds and whether the
villagers are willing to meet the balance.

Subject to orders a draft memo is put up for Appro

DF
22-4-53
M
Mys

('3249/53') At p-3 n/f. of ~~f~~ f. n-f. the D
has ordered that in special ca
building grant may be sanctio
up to Rs. 5000. As such special cases
necessarily have to be restricted the

draft may be approved.

Rly 22/4 re 5

If we anticipate the target is not to be reached in a position to answer for the lower achievement to the C.P.P., we may have to restrict our contribution somewhat Rs 2000/- per school though in ppl cases this limit is exceeded the construction cost being usually kept within Rs 2000/- it happens often that in two cases with our contribution of Rs 2000/- you are to contribute 50% of cost. We can give a grant of Rs 1000/- from our funds if it is for the managers of the school for the balance required. The P.E.O. might tell this so that he need not commit himself yet the same time make the beneficiaries understand that C.P. Budget can bear only 50% of Rs 2000/- which is less. Without such a stipulation the P.E.O. is likely to give promises or rather create an impression in the minds of the beneficiaries that they can get contribution upto 50% whatever be the total cost.

S

DS

The education policy to be followed in this State has been laid down at a Conference of Ministers held recently. Please re-examine in the light of the decisions taken at the Conference.

US
24/4

AO SO

The decision taken at the Conference of ministers has not yet been communicated to us. decision may be awaited.

24/4/53

(Q)

A record of the conclusions arrived at during the Conference of Ministers on the Education policy in the C.P. Area is put up at (Q)

2 The P.E.O's proposals are for financing the construction of additional accommodation to the Arsikere Board Higher Elementary School at Kadandale viz Block II of the area to the extent of Rs ~~15000~~ 4500 being half the estimated cost for the floor space of 2200 sq ft out of the total area of 4600 sq ft for the entire building estimated at Rs 15,000/- As this is a Board Higher Elementary School, the I Condition laid down in the policy is satisfied. As regards the type of education craft work such as spinning, weaving, lace making basket making & rope making is taught in this School II is also satisfied. As regards priority Condition is satisfied as the School is only a third Elementary School

3. The Project estimate for the first stage of development in this area allows the improvement at Rs 2000 each existing accommodation to 27 Schools. According to summary record of discussions the Govt is also Cost of land and buildings for a primary school should not exceed Rs 1500

for orders

~~The P.E.O. may be asked to say whether the Govt will be willing to carry out the work with a grant of Rs 1500 for the C.P. Fund.~~

D.S. may please see.

7/5/53

D.S. 7/5

Draft for up for appl.

7/5/53

Issued as Memo 7002. Public (C.P. Estt) 53-1 & 10½

Ref from the P. E's Mangalore Ref CN: 993/53 BDR 6.53

Please see the report of the P.E's Mangalore he reports that the venepeeras are not agreeable to have Rs 1500 as Govt Grant. He recommends that the grant may be raised to Rs 2500 as a special case as has been done in the case of the local board Elementary school at Kundapoor.

In this case the School Committee all the Contributions specified in the decision arrived by the Govt. The only difficulty is, the Venepeeras require relaxation in the matter of grant which can be sanctioned upto Rs. 1500 from Karanataka.

No 27/6 S 29/6 This was discussed with the P.E.O. today. He said that in view of the huge outlay of Rs 6000/- required the contribution from C.P.A. may be fixed at Rs 2500/- as a special case.

This seems to be a fit case for helping an educational institution. If the beneficiaries bind themselves to pushup the entire construction we may agree to Rs 2500/- as a spl. case. I have already made him understand that such cases will rather be really special & rare

D.S.

Rs 2,500/- Sanctioned as a special case.

CES
3/7

The estimated cost of the additional structure, apart from the basement already constructed, is Rs 18,000 for the hall, verandah all round and the portico. The PEO's original recommendation was for Contribution towards half the Cost of the Civil hall only. as much as the Cl's Contribution has been limited to

Rs 2500 and since the verandah all round is a necessary adjunct to the hall, the Contribution of Rs 2500 from Cp. funds may as well be for the entire work costing Rs 18000. Hence the cost is not apportioned. The draft order is suitably worded.

The draft order may please be approved. The estimate may also be Countersigned

DCP may see after issue.
